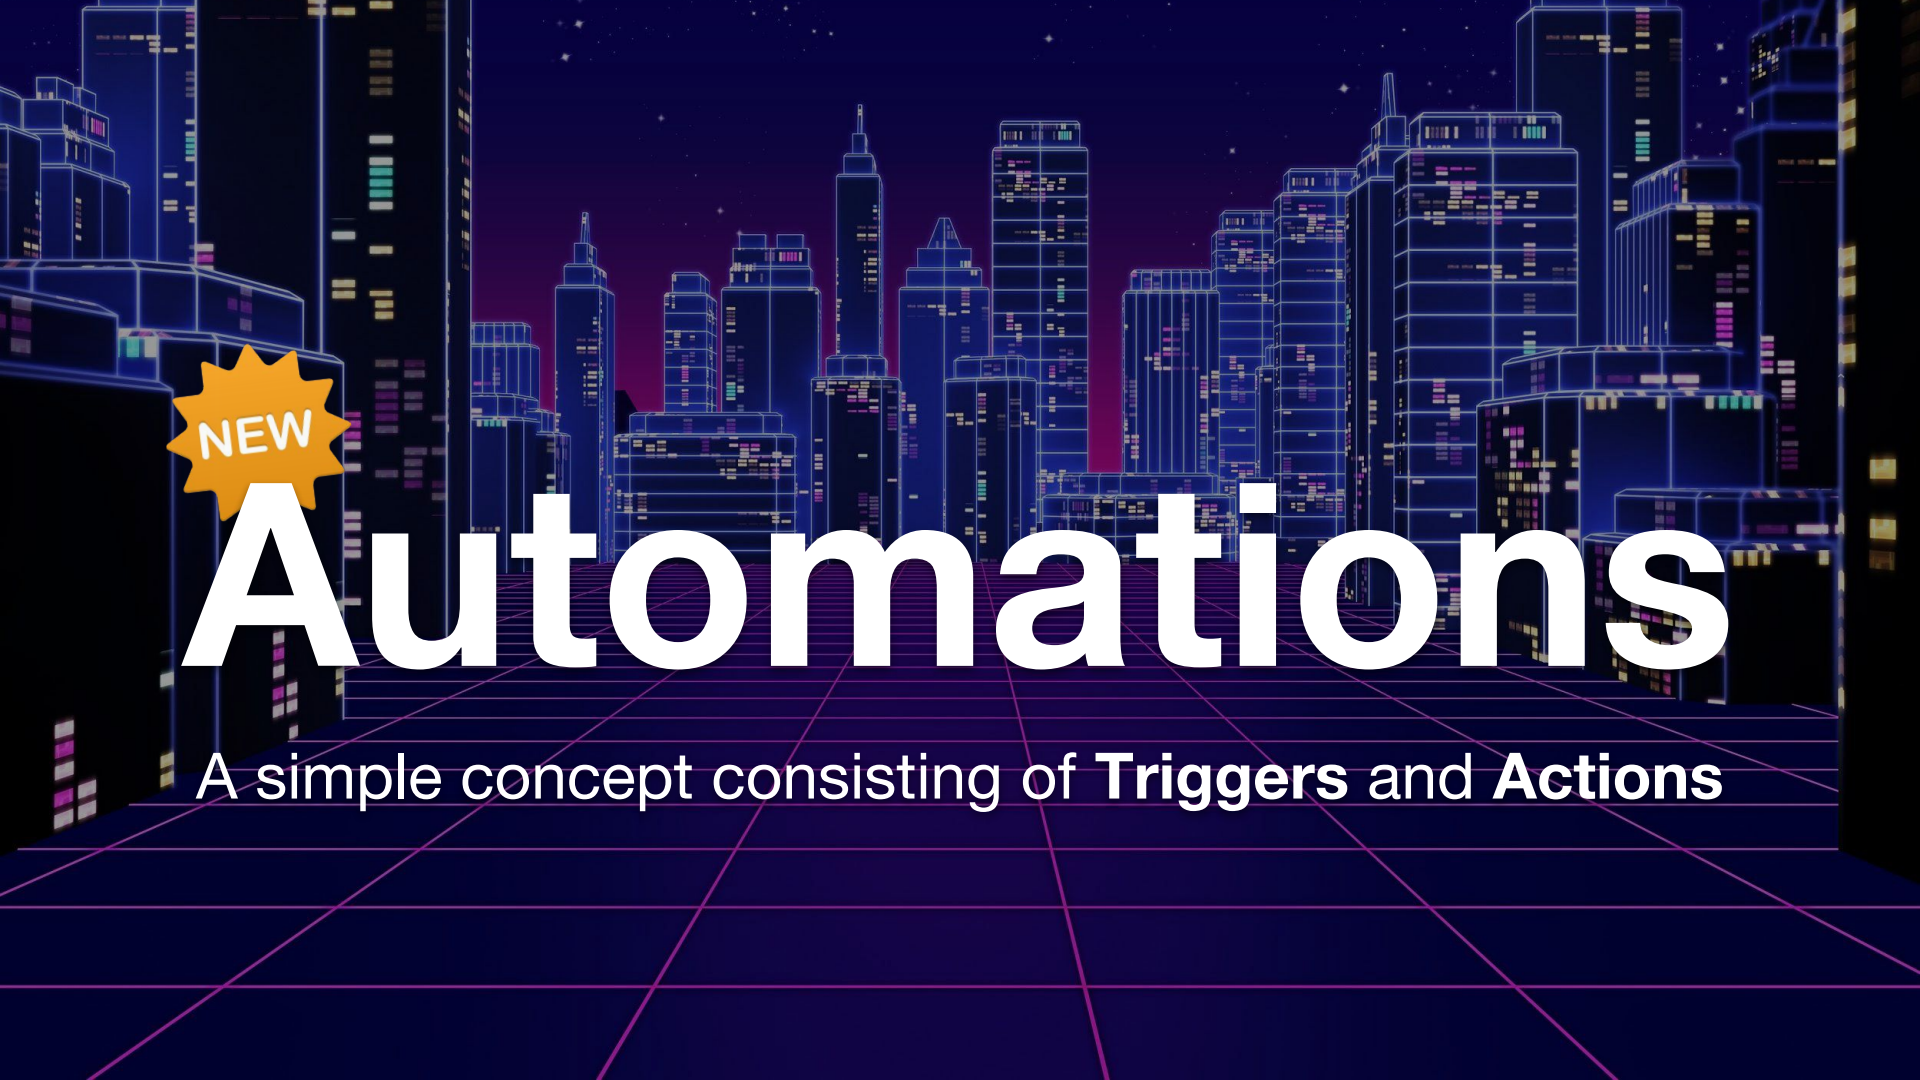
# Demo



NEW
Automations
A simple concept consisting of **Triggers** and **Actions**

**Every Automation has the same pattern:**

*When*

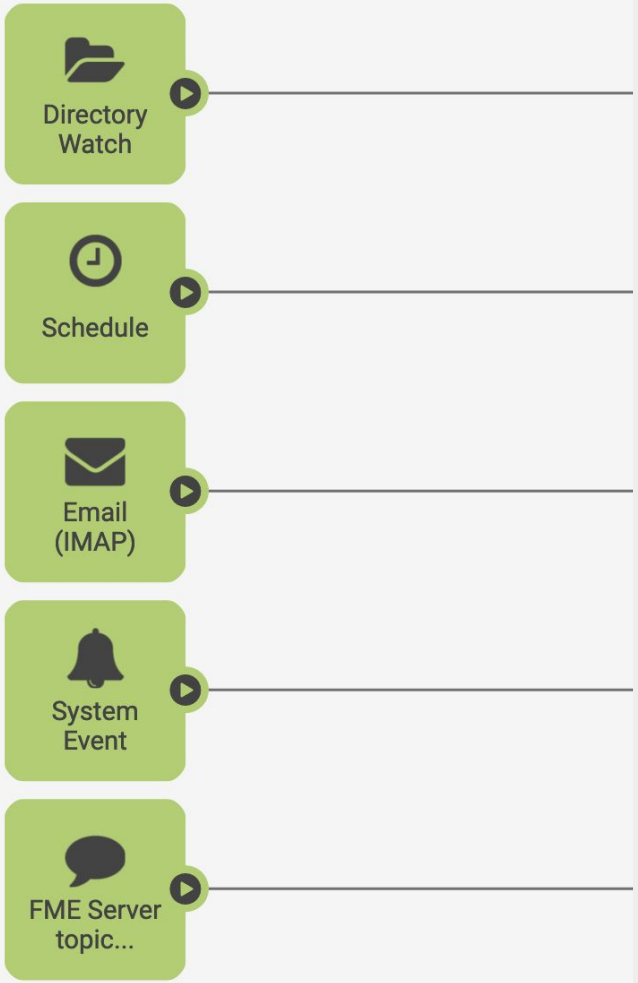
**Trigger Occurs**

*then*

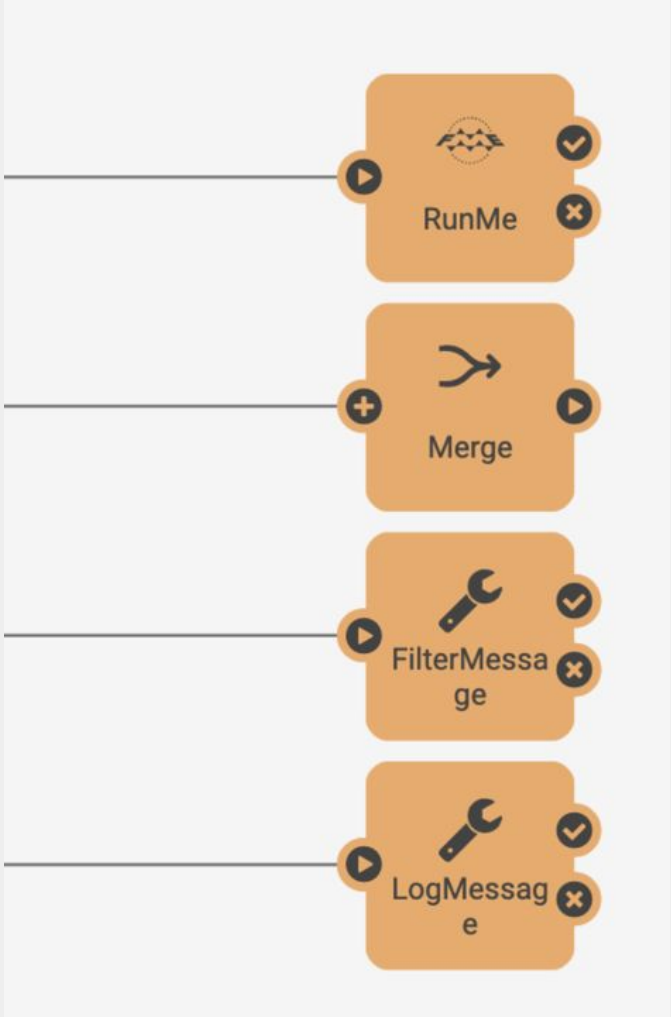
***Perform Action***

# Triggers

Start an automation



# Internal Actions



# External Actions

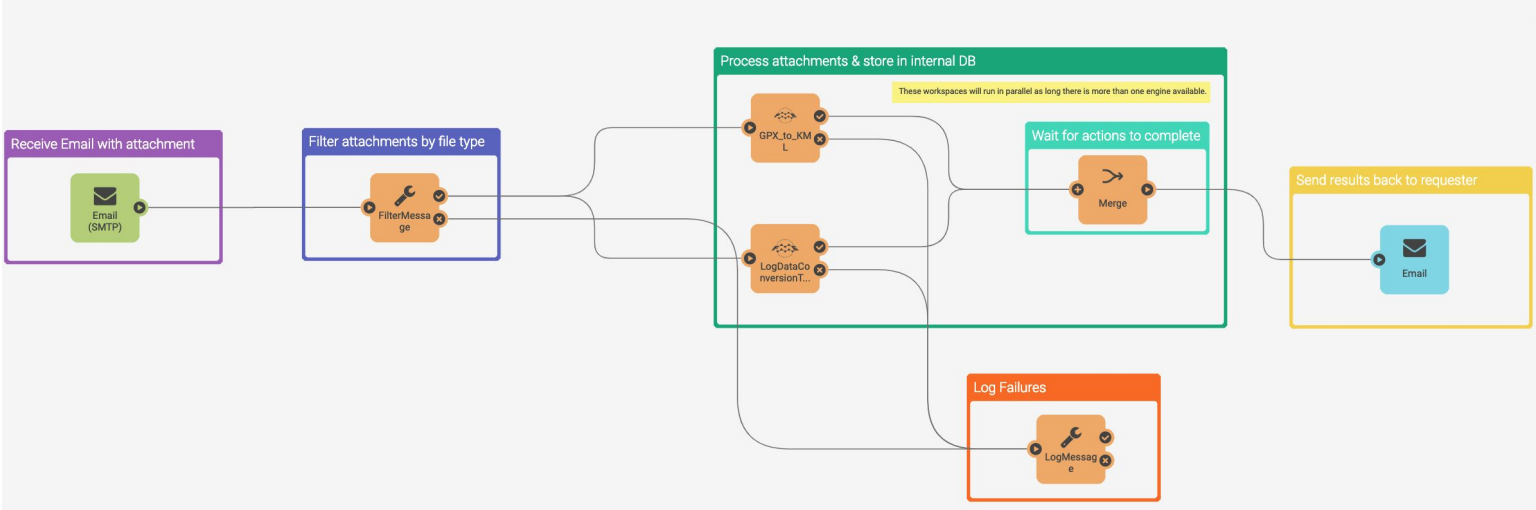
# Our Scenario

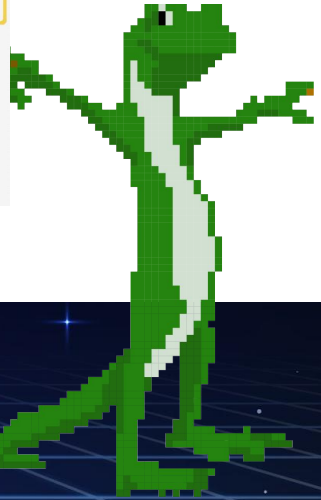
Receive an Email with GPX data attached

Process the Data

Return as a KML attached to an email

# Build the Automation





# Demo

# Thank you!
